

A GREAT OFFER FROM THE NMRA'S KEYSTONE DIVISION...

A CLASSIC

Figures and vehicles not included

City Classics will soon be releasing this great new HO scale kit, the #114 West End Market, and you can get a special limited edition version from Division Two of the NMRA's Mid-Central Region! This unique kit replicates a "modern" supermarket from the 1940s. This type of building was found in almost every city or town from coast to coast. These stylish markets were the forerunners of today's sophisticated "big box" grocery stores. This kit will look great on any street corner from the late 1930s up until today where many are currently still used as other retail businesses. The kit features injection-molded parts, decals and easy-to-follow instructions.

SPECIAL OFFER!!!

While the basic kit does include some decals, every kit purchased from Division Two will include a special limited run decal sheet from Microscale Industries featuring a variety of well-known grocery retailers (like A&P, IGA, Piggly Wiggly, and others)! They are designed especially for this kit and give you everything you need to duplicate a famous supermarket from that era! These decals are not available anywhere else and have never been offered before.

Model availability is expected to be the end of July, 2005,
